**Introducing the Creative Industries: From Theory to Practice** Rosamund Davies, Gauti Sigthorsson

"This text does a sterling job at identifying, outlining and defining the many elements that go to make up this booming sector of industry. What makes it particularly interesting is that it includes the view of the creative industries from the perspective of working in it, then the definitions of what products and producers are involved, and ends with the broader picture of the creative economy and predictions for future trends. Add to this that they include both theory and practice, and this really is an all-round guide to the vast domain that is loosely titled 'the creative industries'"

*- Angela Birchall, School of Media, Music & Performance, Salford University*
