Pro Design Patterns in Swift Adam Freeman

The Swift programming language has transformed the world of iOS development and started a new age of modern development. *Pro Design Patterns in Swift* shows you how to harness the power and flexibility of Swift to apply the most important and enduring design patterns to your applications, taking your development projects to master level.

This book will teach you those design patterns that have always been present at some level in your code, but may not have been recognized, acknowledged, or fully utilized. Implementation of specific pattern approaches will prove their value to any Swift developer.

Best-selling author **Adam Freeman** explains how to get the most from design patterns. He starts with the nuts-and-bolts and shows you everything through to advanced features, going in-depth to give you the knowledge you need.

Pro Design Patterns in Swift brings design patterns to life and shows you how to bring structure and scale to your Swift code with a practical, no-nonsense approach.

What you'll learn

- Gain a solid, practical understanding of why and when design patterns are useful
- Master classic patterns like singleton, abstract factory, chain of responsibility, and observer
- Discover less well-known patterns like memento, composite, command, and mediator
- Understand how Swift provides essential language features for writing well-structured code that is easy to understand, simple to test and readily maintainable.
- Learn how to consume the Cocoa API to implement classic design patterns
- Build on your existing programming knowledge to get up and running with design patterns in Swift quickly and effectively

Who this book is for

Any professional or aspiring iOS developer will find productivity, efficiency, and effectiveness of software development enhanced by the methods and practice delivered by *ProDesign Patterns in Swift.*

From reader reviews:

John Householder:

Hey guys, do you really wants to finds a new book to read? May be the book with the title Pro Design Patterns in Swift suitable to you? Often the book was written by well known writer in this era. The particular book untitled Pro Design Patterns in Swiftis a single of several books this everyone read now. That book was inspired lots of people in the world. When you read this reserve you will enter the new way of measuring that you ever know previous to. The author explained their idea in the simple way, and so all of people can easily to comprehend the core of this reserve. This book will give you a lot of information about this world now. So that you can see the represented of the world in this book.

Dana Vinson:

Often the book Pro Design Patterns in Swift will bring one to the new experience of reading some sort of book. The author style to clarify the idea is very unique. When you try to find new book to see, this book very ideal to you. The book Pro Design Patterns in Swift is much recommended to you you just read. You can also get the e-book from your official web site, so you can quickly to read the book.

Randal Gore:

Your reading sixth sense will not betray you actually, why because this Pro Design Patterns in Swift reserve written by well-known writer we are excited for well how to make book that can be understand by anyone who all read the book. Written with good manner for you, still dripping wet every ideas and composing skill only for eliminate your hunger then you still skepticism Pro Design Patterns in Swift as good book not simply by the cover but also with the content. This is one guide that can break don't evaluate book by its handle, so do you still needing a different sixth sense to pick this!? Oh come on your looking at sixth sense already alerted you so why you have to listening to another sixth sense.

Alva Stephenson:

This Pro Design Patterns in Swift is great reserve for you because the content which is full of information for you who also always deal with world and possess to make decision every minute. That book reveal it details accurately using great coordinate word or we can say no rambling sentences inside it. So if you are read it hurriedly you can have whole facts in it. Doesn't mean it only will give you straight forward sentences but challenging core information with lovely delivering sentences. Having Pro Design Patterns in Swift in your hand like finding the world in your arm, details in it is not ridiculous a single. We can say that no publication that offer you world inside ten or fifteen second right but this guide already do that. So , this can be good reading book. Hey Mr. and Mrs. active do you still doubt this?
