Dental Materials: A Pocket Guide Kimberly G. Bastin

Use this quick guide to learn the essentials of dental materials! **Dental Materials: A Pocket Guide** describes how to recognize, select, and mix the most widely used materials in modern dentistry. A flip-book format covers each dental material in two pages, with the first page showing photos of the material before and after mixing, and the facing page including step-by-step mixing and use instructions. This compact, spiral-bound guide is ideal for on-the-go study or chairside reference.

- **Flip-book style** is ideal for quick identification and quizzing, devoting two pages to each dental material — one with photos, and the other featuring its description — so you can choose to view only the image, only the description, or both.
- **Hundreds of high-quality photographs** help you recognize, identify, and select dental materials, showing materials in three ways: 1) as they appear within manufacturer packaging, 2) as they appear in their unmixed forms, and 3) as they appear at the completion of mixing.
- **Need-to-know information** includes the form in which the dental material is supplied, its composition, the armamentarium for use, and step-by-step directions on how to mix and use the material.
- **Helpful hints or special considerations** highlight specific terms, issues, properties, or clinical uses of the materials.
- **Convenient, easy-to-follow organization** groups chapters into the main categories of materials including restorative materials, impression materials, dental waxes, bonding agents, whitening agents, and others.
- **Compact, pocket size with spiral binding** is ideal for chairside use or on-the-go study.
- **Equipment Commonly Used to Manipulate Materials chapter** sets up a foundation of essential knowledge by describing the equipment needed for work in dental materials.
- **Historical Dental Materials chapter** covers older materials that may still have a place within many dental offices.
- **Quick-reference appendices** make it easier to look up metric conversion tables along with photos of commonly used brand-name products for each type of material.
