Sometimes, all that is needed to change someone's mind is a change of perspective. Flying cameras, freed from the constraints of gravity, redefine how we perceive the world we live in and reveal previously unseen moments of beauty. Very rarely does a new technology level a playing field in an art form, allowing unknown talents to share headlines with established artists. Drones are one of these great equalizers. With this book, we are shining a spotlight on some of the world's best aerial photography. We examine not just the works of well-known aerial photographers, but also the many phenomenal images captured by non-professionals. The subjects of those showcased range from a volcanic eruption to the abstract patterns of fish farms as seen from above, and from never-before-seen views of Patagonia to powerful impressions of the Cliffs of Moher in Ireland. *Above the World* is an ode to the beauty of the aerial image as it can be seen and captured by anyone. Let yourself be inspired.
