Only the top 10% of test-takers, and those who want to be in that top 10%, will need this book. If that's you, read this guide carefully and master the logarithms. You'll feel much more confident about the MCAT, and you'll get a great score! By the time you complete this book, you'll be an expert at MCAT math and you'll be ready for an elite score on the Chemical and Physical Foundations of Biological Systems section of the MCAT.
