## **Gardens of Heaven and Earth** Kristin King

A unique and discursive history of gardens and their significance across a wide range of cultures, *Gardens of Heaven and Earth* explores the meanings behind our efforts to maintain, manipulate and ornament our environment. Drawing particular inspiration from the work of the eighteenth-century Swedish philosopher and mystic Emanuel Swedenborg, this book explores the symbolism of gardens and their use—by Swedenborg and by others—as a metaphor for a model of heaven.

*Gardens of Heaven and Earth* is a lyrical study that investigates the nature of experience, the limitations of language and ideas of the garden as both a relationship to be experienced and as a symbolic language to be read. Discussing gardens in relation to the life and writings of Emanuel Swedenborg, this short work brings a fresh perspective to the roles that gardens have played in delighting and sustaining the human condition throughout the ages.

This volume is augmented by three black-and white-illustrations and also contains a chronology of Swedenborg's life and works, an inventory of Swedenborg's own garden in Stockholm, a bibliography, and an index.
