Large Scale Machine Learning with Python

Bastiaan Sjardin, Luca Massaron, Alberto Boschetti

Large Scale Machine Learning with Python Bastiaan Sjardin, Luca Massaron, Alberto Boschetti

Learn to build powerful machine learning models quickly and deploy large-scale predictive applications

About This Book

- Design, engineer and deploy scalable machine learning solutions with the power of Python
- Take command of Hadoop and Spark with Python for effective machine learning on a map reduce framework
- Build state-of-the-art models and develop personalized recommendations to perform machine learning at scale

Who This Book Is For

This book is for anyone who intends to work with large and complex data sets. Familiarity with basic Python and machine learning concepts is recommended. Working knowledge in statistics and computational mathematics would also be helpful.

What You Will Learn

- Apply the most scalable machine learning algorithms
- Work with modern state-of-the-art large-scale machine learning techniques
- Increase predictive accuracy with deep learning and scalable data-handling techniques
- Improve your work by combining the MapReduce framework with Spark
- Build powerful ensembles at scale
- Use data streams to train linear and non-linear predictive models from extremely large datasets using a single machine

In Detail

Large Python machine learning projects involve new problems associated with specialized machine learning architectures and designs that many data scientists have yet to tackle. But finding algorithms and designing and building platforms that deal with large sets of data is a growing need. Data scientists have to manage and maintain increasingly complex data projects, and with the rise of big data comes an increasing demand for computational and algorithmic efficiency. Large Scale Machine Learning with Python uncovers a new wave of machine learning algorithms that meet scalability demands together with a high predictive accuracy.

Dive into scalable machine learning and the three forms of scalability. Speed up algorithms that can be used on a desktop computer with tips on parallelization and memory allocation. Get to grips with new algorithms that are specifically designed for large projects and can handle bigger files, and learn about machine learning in big data environments. We will also cover the most effective machine learning techniques on a map reduce framework in Hadoop and Spark in Python.

Style and Approach

This efficient and practical title is stuffed full of the techniques, tips and tools you need to ensure your large scale Python machine learning runs swiftly and seamlessly.

Large-scale machine learning tackles a different issue to what is currently on the market. Those working with Hadoop clusters and in data intensive environments can now learn effective ways of building powerful machine learning models from prototype to production.

This book is written in a style that programmers from other languages (R, Julia, Java, Matlab) can follow.

From reader reviews:

Rita Dubois:

The book Large Scale Machine Learning with Python gives you the sense of being enjoy for your spare time. You may use to make your capable considerably more increase. Book can to get your best friend when you getting tension or having big problem using your subject. If you can make studying a book Large Scale Machine Learning with Python to get your habit, you can get more advantages, like add your own personal capable, increase your knowledge about some or all subjects. You could know everything if you like open up and read a reserve Large Scale Machine Learning with Python. Kinds of book are a lot of. It means that, science e-book or encyclopedia or others. So , how do you think about this publication?

Nellie Kim:

The book with title Large Scale Machine Learning with Python posesses a lot of information that you can learn it. You can get a lot of gain after read this book. This kind of book exist new information the information that exist in this reserve represented the condition of the world now. That is important to yo7u to find out how the improvement of the world. This book will bring you in new era of the globalization. You can read the e-book with your smart phone, so you can read that anywhere you want.

Brian Crafton:

The book Large Scale Machine Learning with Python has a lot associated with on it. So when you read this book you can get a lot of profit. The book was published by the very famous author. Tom makes some research previous to write this book. This particular book very easy to read you will get the point easily after scanning this book.

Lupita Kirch:

You may get this Large Scale Machine Learning with Python by visit the bookstore or Mall. Just simply viewing or reviewing it could possibly to be your solve problem if you get difficulties for your knowledge. Kinds of this publication are various. Not only by written or printed but additionally can you enjoy this book by simply e-book. In the modern era just like now, you just looking of your mobile phone and searching what their problem. Right now, choose your current ways to get more information about your book. It is most important to arrange yourself to make your knowledge are still revise. Let's try to choose proper ways for you.
