## Simulation Training in Laparoscopy and Robotic Surgery

The field of minimally invasive surgery (MIS) has now taken centre stage in modern clinical practice. With ever changing technologies in the field of MIS, such as robotics, there is now the need to train the surgeon to the next degree. Training by simulation, whether virtual, hybrid, or real, allows the surgeon to rehearse, learn, improve or maintain their skills in a safe and stress free environment.

*Simulation Training in Laparoscopy and Robotic Surgery* gives a true insight into the latest educational and learning techniques for new technologies in surgery. Written by an international team of experts, this illustrated text provides advice on specialised team training, non technical skills and simulation.

*Simulation Training in Laparoscopy and Robotic Surgery* is an important training aide for surgeons and residents interested in developing skills in this field.
