SAS Institute Inc.

SAS/Warehouse Administrator(TM) Metadata API Reference, Release 1.3, SAS Institute Inc.

This book is for programmers who want to develop client applications which read or write the metadata for SAS/Warehouse Administrator or the Job Scheduler. Using the SAS Metadata Application Program Interface (API), you can write Screen Control Language (SCL) applications that: publish HTML pages containing the current metadata for SAS/Warehouse Administrator, change path names in metadata, copy a table's metadata (in order to create a similar table, for example), add columns to a table, update a column attribute, add tables and other objects defined by metadata, and use the API in a SAS macro to generate a LIBNAME statement.

Supports releases 6.12 and higher of SAS software.
