Research has shown conclusively that when you practice mentally - at the correct level of mind - you will gain almost as much benefit as when you practice physically.

When you combine physical and mental practice, your results are far greater.

Now the world's Number One mind training program will show you how.

Whether you are a pro, a weekend warrior, or a fitness fanatic, this book is for you.

You've seen athletes do it in all sports:

*Professional basketball players mimicking the free throw, picturing it mentally, before actually taking the ball and shooting it

*The pro golf champion on the tee visualizing his drive.

Research has shown conclusively that when you practice mentally - at the correct level of mind - you will gain almost as much benefit as you will when you practice physically. And when you combine both physical and mental practice, your results are far greater.

Silva graduates report they have been able to:

*Learn what they need to know, faster and easier.

*Train their bodies to perform better by visualizing at the correct level of mind

*Improve their intuition and anticipation so that they do the right thing at the right time more often, automatically
