## Turbocharge Your Education.

Are you a parent of a student, or a student, who is in grades K-12 and at the university level and you are interested in boosting your grades, and making your work load easier, and getting more school work done in less time? Are you finding it difficult to stay focused and motivated during and after classes? Are there things relating to school that you find frustrating to do and difficult to understand while other students make it seem like it is a breeze to do?

### **There might be a reason for this. Why? because they have a system!**

You are not the only one with this challenge. Many students have poor academic performance because they hand in homework assignments late or incomplete, or they do not fully understand the subject matter being taught during class or they get low or failing test grades, and they do not raise their hand in class because they are embarrassed that they might have the wrong answers because they did not have organized notes.

### **School is hard.**

Students are often overloaded with a wide range of subjects, tests, quizzes and papers and other projects, with different types of assignments, with different teachers with different teaching styles, books to read, websites to log on, grading rubrics to be aware of, classrooms and class schedules, and many, many more things that could make a students life difficult.

### **The book MAXIMUM EDUCATION makes education easy so you can reach your academic potential.**
