A simple, inventive format that teaches colors with holographic-foiled, movable disks in every spread!

With inventive die-cuts and movable pieces, the ROCK'N'ROLL format is a book that borders on toy design. Using die-cut handles at the end of each page, the ROCK'N'ROLL format allows readers to twist and tilt the book, moving embedded disks on every spread back and forth between two images, highlighting one color or shape on each spread.

Children will love the hypnotic "slide" and "click" as they move the holographic colors back and forth.
