Not only could you beat the odds and win more with the lottery than you thought possible, but winning doesn't have to be hard or complicated. In fact, it all comes down to some simple math that anyone can do, and I've done all the hard work for you anyway. There is no guarantee of winning, but you can increase your chances and beat the odds, and sooner than later they will turn in your favor. It happens all the time, especially when people follow a good system. Don't let anyone tell you can't or won't win the lottery. They are dead wrong! But don't take my word for it... "Thanks for writing this book, I am winning more now with the lottery than in any time before and it's all thanks to your system." Erin Hasse (Carlton, KS) "I love that Noah's strategy is so simple to follow. But he also backs it up with facts and reasons why it helps bring the odds more in your favor." Linda Harris (Rochelle Park, NJ)
