The wonderfully imaginative abstract images in Abstract Adventure IV were created free hand by artist Kendall Bohn. "I let each drawing design itself. Each line influences the next from the first line to the last. It is in the nature of intersecting lines to form patterns within shapes. Overlapping shapes create depth. The lines flow outside the edge of the page so the patterns may continue undistorted. A pattern in an abstract form must stay consistently inconsistent to give the design order and reason. The ever changing patterns are common threads that run through the designs making harmonies that, like strings of musical notes, balance the composition. Harmony in abstract images is created through the slight variation of related shapes." 26 of the 52 designs are what I call "Clones". These Clones are slightly altered from the original drawings, forming another entirely unique perspective to the creative coloring experience. This book contains color theories to guide you while coloring outside the box. Colors also create harmonies, discords, patterns and depth. Use these theories to help answer your questions and to bring out the artist in you!
