## Postmodernism: Style and Subversion, 1970-1990

The radical ideas associated with postmodernism swept through the arts in the 1970s, but have always been hard to summarize. *Postmodernism: Style and Subversion, 1970–90* presents the movement not as merely an aesthetic vocabulary, but also as a subversive attitude—a new way of looking at the world. Bringing together practitioners, theorists, and critics, this groundbreaking book assesses the impact of the phenomenon on all areas of art and design. It covers architecture, interiors, and urban planning; product, graphic, and furniture design; the fashion and style industries; and photography, film, television and video—everything from Michael Graves, Robert Venturi, and Denise Scott Brown to MTV, Grace Jones and Boy George, *Bladerunner*, Karl Lagerfeld, and Comme des Garçons.
